2016 LETTERPRESS PRICING

About Letterpress Ireland

We are a design studio and print workshop located in Limerick, Ireland, specialising in Bespoke Design, Letterpress Print and Finishing.

Ask about offers on complete packages which will undoubtedly lower your costs since we do it all here under one roof. We use Heidelberg Windmill Presses to achieve an undeniable quality and luxurious letterpress print.

Design

We offer design services at the industry standard rate per hour. All designs will be presented to the client for approval and signed off before printing.

Specifications

The prices listed are based on standard print jobs, they are indicated by number of colours/plates, sizes, folded jobs require larger paper order so will be priced accordingly. Special finishes can be discussed to find most economical and cost efficient solutions.

Paper Stock

Our studio's preferred paper is 100% Cotton which comes at a cost. Stocks like so are most suitable for Letterpress printing and is far more luxurious than the usual 'run of the mill' wood pulp papers. There are less expensive alternatives which can also be ordered in specifically for your custom job or you can choose from an array of swatches and pick your own. Please book an appointment today!

Colour

All of our inks are mixed by hand using the Pantone Matching System formula guide. When placing an order please provide the Pantone colors you wish to print or you can provide a sample swatch that you would like to match.

Timing

All standard print orders have a typical turnaround of 10 business days after artwork is finalised. If a job requires a faster turnaround, a rush-fee may be applied. The timing of complex orders will be discussed before the order takes place.
